# SUBMARINE SECRETS!

When the Aqua Raiders are searching for treasure, they count on Crab Crusher Sub 21 to fight off underwater foes. This powerful deep-sea craft is packed with special features so the Aqua Raiders will be prepared for any emergency!

PG 2  
Katie Miller

## AQUA FACTS

A female squid is longer than an average school bus (and makes fewer abops!)

## LAUNCH TORPEDO!

When a monster fish is getting too close for comfort, there's nothing like a torpedo to warn him off. It also comes in handy for challenging underwater assassins to reveal hidden treasure.

## COLLECT TREASURE!

When the Aqua Raiders realize the best time to strike is at the time to gather treasure. Mount the arms of the underwater robot to be able to pick up the valuable items you find.

## MINI-SUB HAWAY!

When spent to your needs, unleash the Mini Sub. Fast and powerful, it can go places that it can't reach and will locate any treasure here.

## MAN THE CONTROLS!

Open the hatch and climb up time to get an Aqua Raider at the Crab Crusher's controls. Be sure to make sure the sub returns back to base in one piece!

# ZYGLAKI

The Zyglok are a reptilian race accidentally created by the Great Beings out of the remains of the process that brought the first Matoran villagers to life. The Great Beings were seeking to create intelligent organisms called krona, but found that some of the material they used turned to Zyglok instead. Shunned by their creators and hated and feared throughout the universe, the bitter, savage Zyglok retreated to the dark places. There they wait, brooding over their fate and hating the Matoran and all who honour Mata Nui. Those who encounter them rarely survive to tell others the tale.
